Through and Through.

Hew Bedford, Mass., Mar. 2nd.—At 859
First St., this city, lives a very happy man.
His name is Ulire Levasceur, and he certainly has good reason to feel gad and proud.

Mr. Levasceur has been sick for a long time with goveral weak-reas and a sore pain in his back. At the last he got so bad that he could not talk without great misery. Now he is well and in speaking of this won-cefful change in him he says:

"I believe it to be my duty to tell every-body how I was curred. I was unable to walk without great pain. I began taking the could not stop; in fact, I was unable to walk without great pain. I began taking bodd a Kidney Pills and affer at wo months treatment I am well and sound again.

"Dodd's Kidney Pills are a tled sent remedy. I will always praise them for their wonderful cure of my case. They cured me through and through. I am as atrong and able a man now as I ever was."

## WESTERN CANADA AROUSING GREAT INTEREST.

Wonderful Vields of Wheat

Until the last five or six years but little attention was given to that wast area of grain-producing land lying north of the 49th parallel and immediately adjoining the northera boundaries of Minnesota and Dakota.

The Canadians themselves were aware of the wealth that lay there, but being mashe to fully occupy it, they have asked the Americans to assist them in converting the land from its virgin state to use that will largely supplement the grain-produclargely supplement the grain-produc-ing area of the North American Con-tinent, and the response has been most liberal.

During the year 1991 apwards of 20,000 from the United States went over to Canada, being induced to settle there by the reports that reached them of the success of those who had preceded them during the previous years. This 20,000 was increased to 30,000 during the year 1992, and it is fully expected that there will be fully 50,000 during the present year. The work of the lumnigration branch of the Canadian Government is not now being directed towards giving informaing directed towards giving informa-tion as to the advantages of settle-ment in Canada as it is to extending an

An amusing story is told of the editor of a ge-shead Loodon evening newspaper, who, in the electral rushing to press to get shead of the opposition, was constantly impressing upon his reporters the necessity for condensing all news.

A territe baler explosion had taken place on board a big ship lying at Ports mouth.

"Get down there as hard as you care, he said to one of his men. "If you cared the 11-40 from London bridge you'll be there soon after two and can just wire us something for the fifth edition, but boil it down."

And the reporter went. Soon after two o'clock that afternoon they got a wire from him.

"Territic explosion. Mano-war. Hotier empty. Engineer full. Funeral to-morrow."—London Tit Bits.

If the Revenues Are Handled Judiciously, the Governor Says, There Will Be No Need for Additional Taxation to Pro-vide Funds for the Erection of the

Jefferson City, Mo., Feb. 27.—Gov. Dockery has sent a special message to the general assembly regarding the deplorable condition of the Missouri school for the blind and pleading for a liberal appropriation to this institution. The visiting committee, of which Senator Heather was chairman, spoke strongly on the subject. The message sent to the senate backs up the visiting committee's report in no uncertain terms. There is a movement on foot to move the asylum outside of St. Louis, sway from the neighborhood where it is now situated.

The present appropriation bill car-tics an appropriation of \$81,200 for the institution.

## AN EXECUTIVE WARNING.

The Governor of Missouri Calls At-tention to the Reveality of Economy in Appropriations.

Jefferson City, Mo., Feb. 24.—Gov. Dockery struck the keynote against excessive appropriations, yesterday, when he sent a message to both branches of the general assembly, calling attention to the necessity of

economy in legislation.

That he deems the situation serious enough to interest every friend of state institutions was evident from the tone of the message.

Already the regular appropriations

Already the regular appropriations exceed the estimated revenues for the coming year about \$100,000. Monday afternoon the house passed a bill to establish a binding twine plant at the penitentiary. It will take \$175,000 extra to install and provide the capital stock for this enterprise.

The \$100,000 excess in the regular appropriations may be said to cover the deficiencies from the last bi-ennial period. It must be paid before the electrosynary institutions receive consideration. Likewise with the appropriation for the binding twine plant. These two appropriations alone mount up to the sum of \$275,000.

mount up to the sum of \$275,000.

So it is evident to every observer in Jefferson City that the appropriations for the various institutions must be scaled down. Every new enterprise in which the state embarks takes just that much away from the terprise in which the state embarks takes just that much away from the educational, eleemosynary and penal institutions. Even though the general assembly should give big items for each institution, the governor will be compelled to reduce and cut out appropriations, many of which are deemed absolutely necessary by the boards of managers. boards of managers.

## IN SPITE OF OPPOSITION.

I for a Statue of Miss Prances Willard Passed by the Illinois House-Old Fort Massac.

Springfield, Ill., Feb. 25 .- In the Springfield, Ill., Feb. 25.—In the house, Tuesday, the bill appropriating \$9,000 for a statue of Miss Frances E. Willard to be placed in statuary hall in Washington, D. C., encountered unexpected opposition. Mr. Darrow opposed the bill. He said: "If this house is to appropriate the money of the taxpayers to build monuments for every worthy man or uments for every worthy man or woman who dies, I don't know where we will come out. I understand there are bills here to construct monu-ments and to hire custodians for all the dead governors who have resided the dead governors who have resided in Illinois and to commemorate all the battlefields, ancient and modern. Frances E. Williard was a great woman who did a great work for the world. She was at the head of an organization of millions of people. Those millions should build this monument and can build it; and they have no right to ask this legislature to vote away the public money to build a monument for a private individual, however worthy that individual may be." After further debate, the bill was passed by a vote of 102 to 16. Bills were also passed appropriating \$10,000 for the purchase of the site of old Fort Massae, in Massae county, and appropriating \$5,000 for the relief of the famine stricken people of Sweden and Finland. the battlefields, ancient and modern,
